Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

EXAMINER'S AMENDMENT

1. This Office Action is responsive to the Amendment filed on 7/18/03.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Gregory Sebald on 08/12/03.

The application has been amended as follows:

IN THE CLAIMS:

Claim 47 has been cancelled.

REASONS FOR ALLOWANCE

3. Claims 30-33, 43-46, 53-83, 85-99 and 104-155 are allowed.
4. The following is an examiner's statement of reasons for allowance:

References Briggs et al (4,264,954), Brousseau et al (6,449,536), Heggestad et al (5,533,695) and Horst et al (5,685,507) are additionally cited because they are pertinent to systems using wireless communication for remotely controlling operations.

As per independent claims 30 and 43, Kiriya (5,729,210), prior art of record, teaches the claimed system except that he fails to disclose a message encoder in communication with a message builder to encode a message constructed by said message builder, in combination with other limitation recited in the claims. It would not have been obvious for one skilled in the art to combine Kiriya with other prior art of record in order to arrive at the claimed invention.

Art Unit: 2631

As per independent claims 53, 61 and 106, none of prior art of record teaches or suggests a method and associated system comprising step/means for performing a validation procedure, in association with limitations as recited in the claims.

As per independent claims 69 and 85, Kiriya teaches the claimed system except that he fails to disclose a system comprising a transmitter and a slave controller wherein said slave controller outputs over a communication link an identifier of said slave controller for transmission to said transmitter, in combination with other limitations as recited in the claims.

As per independent claim 104, Kiriya teaches the claimed method except that he fails to disclose a step of outputting from a transmitter over a first communication link the identifier of said transmitter for transmission to a slave controller, in combination with other limitations as recited in the claim. It would not have been obvious for one skilled in the art to combine Kiriya with other prior art of record in order to arrive at the claimed invention.

As per independent claims 107, 122 and 130, none of prior art of record teaches or suggests a system comprising a processing unit, in association with limitations as recited in the claims.

As per independent claim 115, none of prior art of record teaches or suggests a method of synchronizing addresses with steps, in association with limitations as recited in the claims.

As per independent claims 138 and 145, none of prior art of record teaches or suggests a system comprising a signal transmission unit, in association with limitations as recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

Art Unit: 2631

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
